**To Whom it May Concern**

Ikemeleng Architects

Dear Sir / Madam

---

**SUBJECT: LETTER OF REFERENCE: IKEMELENG ARCHITECTS**

---

Ikemeleng Architects, were appointed in 2008 in a joint venture with Osmond Lange Architects and Planners, as Architect and Principal Agent for the Mthatha Airport Upgrade project, the tendered Contract Value for which is R212 018 755.99 (inc. VAT).

The Scope of Works of this project was as follows:

- Design of New single storey Domestic Terminal Building with 6 Check in Counters, replacing the existing smaller double storey low volume building, and an expansion of the existing footprint;
- New double volume Concourse;
- New and improved Departure Lounge and Baggage Claims area;
- New glazed Façade with lighter feel;
- New aerodynamic roof profile;
- New Car Rental Facility Building for nine Operators;

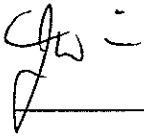

- Upgrade of Control Tower;
- New Passenger drop off and pick up areas and Parking Area for cars and Tour Buses;
- Airport Management Section within Terminal Building.

The project is now in an advanced stage of construction. Throughout the project, the performance of the JV has been most satisfactory. They have demonstrated a good understanding of the requirements for this substantial project and have applied innovative ideas in the design of the buildings. Furthermore, they have applied themselves in an excellent manner in the execution of their duties as Principal Agent.

It is my view that Ikemeleng Architects be recommended for work on similar projects.

Yours sincerely

**John Davies**
