

ABOUT US

Ikemeleng is a seSotho word meaning "stand on your own feet". As Architects, we believe that we have an important role to play in contributing to the transformation of South African society. Our goal is to become a voice through which the communities we are part of, and other voiceless sections of society, can speak creatively and have a stake in shaping the environment in which we all live. Founded in 2002, Ikemeleng Architects is a design-focused practice based in Johannesburg. The practice has undertaken work of a variety of types, but has in recent times developed specialised expertise in the spheres of transport, health, urban design and urban renewal.

B-BBEE

Ikemeleng Architects is 100% HDI-owned and managed. The company has been certified as a Level One contributor to BEE Procurement. As recipients of empowerment opportunities, we firmly believe that it is our responsibility to open doors to opportunities for other young professional and entrepreneurs. To this end, Ikemeleng Architects has engaged in partnering, mentoring of and logistical assistance to a number of new HDI-owned start-up businesses.

CORPORATE SOCIAL RESPONSIBILITY

Ikemeleng Architects has committed to donating one percent of our profit each year to charitable organisations active in work to uplift marginalised communities as well as providing services at reduced or zero fees to organisations active within marginalised communities. Members of the company has also given talks to university students, high-school learners and careers fairs as well as media interviews aimed at attracting young people from disadvantaged communities to the architectural profession.
